THE METROPOLITAN BOARD OF HEALTH.

Standing Committees Appointed—Filthy Streets Reported—Pat and Offal Boiting—The Objectionable Printing Office—The Manhattan Gas Works a Nuisance—New Duties for the Police Force—Conference with the Butchers.

The Metropolitan Board of Health held its regular semi-weekly session yesterday afternoon at their rooms, No. 301 Mott-st., President Schultz in the chair, and all the members present. The minutes of the last meeting were read and approved.

Standing Committee—Drs. Parker, Stone and Crane. Finance Committee—Ors. Meanning—Kester and Swinbarne. Personal.

Personal.

The Metropolitan Board of Committee on Laws and Ordinances—Messrs. Bosworth, Acton and Swinbarne.

The Welton asked the indorsement of the Parad to

Finance Committee—Messrs. Manniere, Stone and Bergen.

Committee on Laws and Ordinances—Messrs. Bosworth, Acton and Swinburne.

Dr. Holton asked the indorsement of the Poard to some proposed lectures upon Hygiene, The application received the following reply:

Resolved, That although we should rejoice at any efforts that might be made to dissummate the knowledge of hysiene and Physicogy among the poor, who are chiefly interested in such maiters, yet we cannot, as members of the Board of Health, do yet any of the side Dr. Holton since we find by the provision of moving out of this sider's will (Mrs. Brown) that he is left soic trustee of the line sider's will (Mrs. Brown) that he is left soic trustee of the fund which is to enable him alone to give the proposed in the property lines, and that he would be as successful without an indorsement as with it.

APPOINTMENT.

ment as with it.

Norman A. Besch was appointed an additional clerk, under the direction of the Sanitary Superintendent.

FILTHY STREETS.

Superintendent Daiton made a report upon the fellowing streets, which are said to be in a particularly fifthy condition. The report was referred to the President of the Board:

Washington from Battery to Courtland-st.; Canal-st. at its junction with Watts; Dey-st.; Vesey-st.; West-st. from Canal to the Battery; Leonard-st. east of West Broadway; Harrison, Albany, Liberty, Cedar, Thomas, Morris, Stone, Beaver, Water near Broad, Pearl below Hanover-square, Cliff, Frankfort, Baxter, Worth, Elm, Mott and Mulberry sis.

THE BROOKLYN OFFICE.

Assistant Sanitary Superintendent Conkling asked permission to obtain, if possible, a suitable room for an office in the City Hell of Brooklyn, and such furniture as was necessary, which was granted.

The Sanitary Committee was requested to report to the Board such streets as in their judgment needed impediate cleaning.

mediate cleaning.

The following fat-boiling establishments were reported nuisances and orders were issued directing that their business be suspended: Sixty-sixth-st., between Fifty-second and Fifty-third-sts.; No. 289 West Forty-eighth-st., and No. 602 West Forty-seventh-st. Orders were also issued to the number of \$630 for the abstement of nuisances in different narts of the city. The following is a copy of one of the notices issued concerning the far-boiling establishments. The notices are issued in triplicate; the original copy is retained by the Board of Health, the absond is served to the party offending, while the third is returned with an affidavit of service:

Optice of the Metropolitas Board of Health, held on the 16th day of March, 1966, at said office, the business hereingfer named, having been, and being, in the opinion of said Board, and, in fact, in a condition and in effect dangerous forms, and the stable to the first and said Board having taken and field among its records what it regards as being, and what is enfounced in the same is a public nuisance, and dangerous to life or health; said Board does bereby effect the same in its records as a nuisance, and makes, in respect thereo, the following order, to writ.

That the business of fat and office of health, left and Eleventesaves. New York, be suspended:

And directs this order to be served as said law requires, and that the same be executed by the Board of Metropolitan Folice; but that its execution be not commenced autil the farther order of this Board. As witness the signature of the order of this Board. As witness the signature of the order of this Board. As witness the signature of the order of this Board. As witness the signature of the order of this Board. As witness the signature of the order of this Board. As witness the signature of the order of this Board. pediate cleaning.

FAT AND OFFAL-BOILING.

and the same be executed by the not commenced until the rance; but that its execution be not commenced until the rance; but that its execution be not commenced until the rance; but the same between the rance of th

THE OBJECTIONABLE PRINTING-OFFICE.
We give below the report of Dr. Newman, Sanitary aspector of the First District, upon a complaint gainst the printing establishment of Messrs, Gray & reen, which was noticed in these columns. The In-

Green, which was noticed in these columns. The Inspector says:

"The building is entirely fire-proof, six stories high. Rach work-room is about 40 by 50 feet, and has 19 windows with fron sashes, divided on three sides of the room. On the fourth side is a hatchway, which runs longitudizelly through the whole building, and, when open, acte as a ventilator. Each window has 40 panes of giass, each 10 by 12 inches. On the top, six of these panes swing open, and, is a similar way, nine panes open on the bottom of the window; therefore, 25 panes in each 50 om open for vertilation, which makes 2,850 square feet. This ventilation is not only a good, but a celentific one. The vitinged, carbonized air must necessarily escape through the upper opening, and fresh, cool air enters through the lower passage. The proprietors state that they employ at present 250 persons, male and female. Out of this number, 50 have been in constant employ for the past seven or eight years, not a single death having occurred from disease. The inspector finds nothing in the premises detrimental to health."

cerating the Manhattan Gas Works, which was referred to the Attorney of the Board.

The Manhattan Gas Company use every day 100,600 gallons of water for purifying their gas. This water, after being used for that purpose, is allowed to flow from their works, through a sewer, into the East River. It takes away with it all the impurities of the gas, together with a small portion of coal tar. The Company do not throw any of their refuse matter into the river, save what flows through the sewer. It is a fact that the river is at all times impregnated with this offensive liquid containing coal-oil. The water siong the docks, from East Twenty-second-st, to below Grandet. Ferry is constantly covered with coal-tar oil, making it very offensive stantly covered with coal-tar oil, making it very offensive in THIS CITY, throughout the United States, and elsewhere. stantly covered with coal-tar oil, making it very offensive to those who live in that vicinity, as well as those who work in the numerous ship-yards that abound is that locality. The ship builders say it is an injury to their business. It certainly is a nuisance that should be abated as far as possible.

bosiness. It certainly is a unisance that should be abated on far as possible.

The DUTIES OF THE POLICE PORCE.

The following were offered by Commissioner Bosworth, and adopted unanimonsly:

Received. That, and it otherwise ordered by this Board, the Board of Metropolitan Police it hereby requested to execute each and all orders and and that may be made by this Board under Section 14 of chapter 74 of the Session Laws of 1800, and to serve each and every notice required by said Act, to be served as preliminary to the execution of or in part execution of every and all such orders.

Received. That except in the cases where a different mode of authentication is required by the rules or regulations of this Board, by the principle of the time of the Secution of the time of the tim

The STREET-CLEANING CONTRACT.

President Schultz stated that he had an interview day before yeaterday with the contractors for cleaning the streets, and the result was eminently satisfactory in wery respect. They have a force of 900 men now at work, and expect to have the streets thoroughly cleaned within the next 10 days. They are wiling to fulfill their contract in letter and is spirit, and ask the Board to relieve them from certain leeches that have heretore fed upon them to the extent of \$8,000 or \$10,000 per annum. If they could discharge the worthless part of the force they have now employed, which holds its position mainly through the influence of persons they cannot asfely offend, there will be no negligence or dereliction of duty upon their part hereafter. The trial will be made, and the result will find voice in the future.

THE CONFRIENCE WITH THE BUTCHERS.

THE CONFERENCE WITH THE BUTCHERS. THE CONFERENCE WITH THE BUICHERS.

After the Board adjourned President Senuitz had a conference with the Committee appointed by the Butchers. It is more than probable that immediate steps will be taken by the owners, to remove their slaughter-houses from the densely populated portion of the city. This will, undoubtedly, result in an abstoir, under their control, at the upper part of, Manhattan Island. In the meantime, they will endeavor to keep their present locations lacefleusive, and the business of those who fail will be suspended. The report of President Schultz appen this subject will be submitted to the Board at its next meeting.

WASHINGTON MARKET.

To-day Washington Market will andergo a thorough inspection. The stalls that have been built over the gutters will be removed, and if possible it will be put in a wholesome condition forthwith. Should this prove impracticable it will be removed. The business of the ReMEDY will please notice that the genuine article bears the signature of "R GOODALE'S CATARRH REMEDY will please notice that the genuine article bears the signature of the city, as well as the health, demands it, in the opinion of many members of the Board; and other arrangements will be made for the accommodation of the renders of food, some plans having, in that event, already been discussed.

STEINWAY & SONS'
GRAND, SQUARE AND UPRIGHT
PIANO-FORTES

well as in Europe, having taxen Thirty-tree First Promiums, Gold and Silver Medals, at the Principal Fairs, node in this country within the last ten years, and in addition there they were awarded a First Prize Medal at ** Great International Exhibition in Louis, 192, for Powerful, Clean, Britister, and Sympathetic Tone, with excellence of workmanthing as shown in Grend and Square Planos.

with excellence of workmanthip as shown in Grand and Square Planus.

There were 269 Planus, from all parts of the world, entered for competition, and the special correspondent of The Times available.

"Messas, Strinwars' indersement by the jurous is emphatic, and stronger, and more to the point, than that of any European maker.

"This greatest triamph of American Plano-fortes in England has caused a scaustion in musical choice throughout the continent, and, as a result, the Messas Strinway are in constant receipt of orders from Europe, thus inaugurating a new phase in the history of American Plano-fortes, by creating in them an atticle of export."

EVERY STRINGAY PIANG-PORTE IS WARRANTED FOR FIVE YEARS.

Among the many and most valuable important improve-ments introduced by Mesers. Steinway & Sons, in their Figure

is directed to their is directed to their

PARSIT AGRAFUE ARRANGEMENT.

(For which letters patent were granted them Nov. 29, 1859.)

The value and laportance of this invention having been practically tested, during a period of nearly six years, by steinway & Sons, in all their Grands and highest priced Square Pisno-fortes, and admitted to be the greatest improvement of modern times, they now announce that they have determined to introduce their "Patent Agrafte Arrangement" in every Pisno-forte manufactured by them, without increase of its cost, in order that all their patrons may resp the fall advantage of this great improvement.

REASONS FOR PURCHASING

A STEINWAY PIANO-FORTE

A STEINWAY PIANO-FORTE
IN PREFIRENCE TO ALL OTHERS.
First—The fact that they have been awarded the First
Premiums both in Europe and America by the most competent and infertible of judges.
SECOND—The fact that all their "scales, improvement and
peculiarities of construction" have been copied by a large mapority of the manufacturers of both hemispheres as closely as
could be done without infringement of patent rights; thus ofsitting their reast superiority over all others.
THINDLY—The fact that a large number of manufacturers
and "Associations" profess to make planefortes exactly like
Steinways" or to have been in their employ as foremen or
workmen, thus conceding their excellence in claiming an Indorsement for their own instruments.
Forgrith—The fact that while the majority of the smaller
makers monufacture their pianon in several separate shops and
purchase the actions, some also the keyboards, and even the
cases for their instruments, ready stade, every portion of a
"Steinway" Piano, from its inclpis ney to its completion, is
manufactured in one numence building, under the immediate
personal superintendence of the Messrs, Steinway, father and
three soms, thus insuring perfect uniformity and unrivaled excellence.

First way—The fact that that no Piano-forte with the sileht-

cellence.

Fifthix—The fact that that no Piano-forte with the slightest possible defect is ever permitted to leave the manufactory,
and that every Steinway instrument is warranted for Fire Years.

Sixthix—The fact that in purchasing a Plano-forte the ex-

SITELY—The fact that in purchasing a Plano-forte the established reputation of its maker should be relied on as strongly as its apparent quality, and far more than its first cost. Sixvaxtully—The immense working capital employed, which commends slike the choice of labor, the employment of the most skilling artitans, the selection and accumulation of maleriais of all kinds, and the thorough and lengthened seasoning process to which the immers piled success achieved by Syrikhay & Sons Plano-szerks, in pile of all and every opposition, is admitted to be owing to their stering and lasting qualities, which stand alike the test of time and trial.

NISTRIN—The fact that the majority of the most eminent artists of Europe, and with but few exceptions the most celebrated plannias resident in America, prefer them for their own private and public use whenever they can obtain them, and thair testimony is overwhelming, as will be seen by the following certificate:

TENTIALONIAL OF THE MOST DISTINGUISHED.
